

Due to the snowy conditions and the resultant unavailability of certain parking lots, there is a change in the Prop Drop location for Problem 4: Ready, Set, Balsa, Build! The NEW Prop Drop location is in the driveway between Lyman Ctr. and Engleman Hall--the "Lyman Circle." Please see the PINK arrows below for Prop Drop temporary parking (next to the bus stop), the Prop Drop entrance (Engleman Hall, end of C-wing), and the Prop Drop storage location (walk through C-wing to get to D-wing). Please remember that props may be dropped off no more than three hours in advance of your Long Term performance time. (For the earliest teams, Prop Drop will be open at 7:45.) Props must be removed from Engleman Hall immediately following the team's performance. During prop drop-off and pick-up, an adult must stay with the car and loading/unloading must be accomplished as efficiently as possible.
