# Problem Synopses

All problems have an 8-minute time limit.

## Problem 1: Longshot Solution

*Divisions 1, 2 & 3 — Problem Captain: Bob Zinser, Assistant Problem Captain: Brianna Farrand*

A group of "Longshots" believe a disastrous event that threatens the world is about to occur and must stop it. Because no one takes them seriously, it is up to the Longshots to solve the problem. To succeed they must send materials from all corners of the world using vehicles that overcome obstacles and travel simultaneously into and out of a Reaction Area. As time counts down the Longshots will use the components, including baking soda, to create a reaction that produces a very special effect and saves the day!

## Problem 2: Net Working

*Divisions 1, 2, 3 & 4 — Problem Captain: Anu Kothandaraman, Assistant Problem Captain: Gretchen Briggs*

Computers, satellites, and servers work continuously to allow people from all over the world to network with each other. These networks give us access to information including communications, messages, and videos. In this problem, the networked devices are characters who work to keep the world connected. During the performance, an image, a text message, an email and other information will be transmitted between locations in a team-made system. Pop-up advertisements appear and a malware character will infect the network and take it offline. An anti-virus hero comes to the rescue and team-made instruments will be used to present an original song that explains their jobs.

## Problem 3: Classics...The Effective Detective

*Divisions 1, 2, 3 & 4 — Problem Captain: Sarah Carey, Assistant Problem Captain: Megan Doyon*

You will be introduced to one of the greatest detectives the world has ever known as they follow clues to uncover the truth behind some of history's real-world mysteries. The detective will investigate different types of information, including a clue that is a "red herring" i.e. a distraction, and do intellectual battle with a supervillain who wants the detective to fail. Sounds will ring out and settings will creatively change to set the scene and highlight the action. The team will also be challenged to use the smallest space possible to store its solution.

## Problem 4: Balsa Limbo

*Divisions 1, 2, 3 & 4 — Problem Captain: Amy Zinser, Assistant Problem Captain: Sherri Martin*

Teams will build balsa wood structures that are created by adjusting its interconnected parts. When the parts are not in the final form for weight testing, they must be able to pass under a limbo bar. Higher score will be awarded for how low the bar is when the structure passes under it. However, the bar is not allowed to be lower than ½"! The limbo bar test and maneuvering the structure for testing will take place during the performance time. Testing of the structure will take place during a performance with a theme about dancing and movement.

## Problem 5: Gibberish or Not

*Divisions 1, 2, 3 & 4 — Problem Captain: Josh Young, Assistant Problem Captain: Rachel Cunningham*

Genius or not so smart, statements change from Gibberish at the start. Do the thoughts shine or miss the mark? Masses think they're being led out of the dark. A Champion arranges meetings with those in power, and gibberish ideas bloom like a flower. The crowd replaces thoughts with wisdom, and a Child sees it is all just humdrum. Misinterpreted over and again, twisted words fly in the end. Music blares and the celebration is wild, and misunderstanding is accepted by the child. The performance will explain why the child does not reveal the truth that what they believe is wisdom was really just gibberish.

## Primary: The Fashion Bug

*Grades K-2 — Problem Captain: Kevin Sayour, Assistant Problem Captain: Debi Crotty*

The team's problem is to create and present a humorous performance that includes a fashion show for insects. An up-and-coming designer will be highlighted as a narrator describes the odd and curious fashions as they are modeled. A team-created song, a commercial, and a critic who reviews the Fashion Show are all part of the performance.

## Could I Be a Coach?

**Yes, you can!** Volunteer coaches are the foundation of the Odyssey program. They are often parents, teachers, grandparents, or community members. Coaching is rewarding and fun, and best of all, it gives more kids the opportunity to be involved in all of the wonderful, productive creativity you saw on display today. Coaches generally meet weekly with teams of up to seven students to supervise them and stimulate, rather than influence, their thinking. No “outside assistance” is allowed as the team works together to solve its chosen problem.

**You won’t be alone.** CTOM offers coach training in the fall and early winter. We also offer Odyssey Day, a skills-training day for kids and coaches, with topics such as balsa-wood building, improvising, script writing, making things work, and converting junk to treasure. Our website, [www.ctom.org](http://www.ctom.org), and the national website, [www.odysseyofthemind.com](http://www.odysseyofthemind.com), are loaded with hints and resources to help you. Several school districts hold spontaneous scrimmages you can attend to help your team practice on-the-spot verbal and hands-on problem-solving skills.

**Find out more.** Explore the websites or contact [AssnDir@ctom.org](mailto:AssnDir@ctom.org). *We can’t wait for you to join us in the amazing adventure that is Odyssey of the Mind!*

# Stay Involved

## CTOM Board of Directors Openings

Do you have teaching skills, legal or accounting expertise, fundraising or publicity experience, or just love what Odyssey provides for children? We are looking for individuals willing to work actively and collaboratively to build our program.

**Consider applying to become a member** of the CTOM, Inc. Board of Directors. Email our President Dave Schaller at [dschaller@ctom.org](mailto:dschaller@ctom.org) for more information or to nominate yourself.

## OMers – Stay in Touch

**Attention graduating high school seniors and other alumni –**

Join the national Odyssey Alumni network ([www.odysseyalumni.org](http://www.odysseyalumni.org)) to stay in touch, network, and volunteer! Be sure to join CTOM on Facebook!

## Goodbye valued Board Members

We thank **John Pullan** and **Betsy Wellington** for their dedication and service to CTOM. We could not have done it without you!
