

Welcome to WEEK 3 of the CTOM Virtual Summer Spon Club! Challenges can be completed by individuals, teams or a group of family members. Have fun with Spon Club by inviting friends and family to also complete the challenge... who is the most creative problem solver in your family?! Below is the information for week 3 of the Summer Spon Club!

YOUR SOLUTION MUST BE POSTED/ EMAILED BY 8/11!!!

Welcome to Week 3 of our Virtual Summer Spon Club! This week's challenge is a verbal hands-on spontaneous problem. You may have 1 minute to think, and 3 minutes to respond. Primary teams (K-2) may have 2 minutes to think and 5 minutes to respond. Primary teams may also have a piece of paper to write or draw their thoughts during think time. To solve this Spontaneous, you will need a nickel coin, a marble, and a toothpick. Primary teams may also use 2 additional items of their choice. You can record your responses on a piece of paper or record yourself giving as many responses as you can for the time allowed. **Your problem is to say something about one or more of the three items on the table or you may improvise or pretend that they represent something and say what it is they represent. Primary teams may also use their two additional chosen items. For example, you might pick up the toothpick, push the marble toward the nickel and say, "Putting Green".** Have fun and think outside the box!

Don't forget to comment on our Facebook post with your solution, send us a direct message (DM) on Instagram, and/ or email it to rcunningham@ctom.org! For information regarding photos/videos and their use, please see our website at: <http://ctom.org/summer-spon-club/>

Good luck and HAVE FUN!

If you have questions, please feel free to email Rachel Cunningham at rcunningham@ctom.org or ask us a question on Facebook or Instagram! We can't wait to see your creative solutions to this week's Spontaneous!

Note: Weekly Spon challenges will be posted on THURSDAYS and all solutions must be posted by the following TUESDAY. Check out solutions to last week's challenges [here!](#)
