Policy on Association Director's Attending World Finals and Mid-Year Directors' Meeting

Policy

Each year the CTOM Association Director is expected and encouraged to attend Odyssey of The Mind World Finals. The Director represents CTOM to the international organization while also supporting and encouraging CTOM teams participating in World Finals.

Important Association Directors' meetings and discussions with Creative Competitions, Inc. occur at both World Finals and the Mid-Year Directors' meeting. Attendance at these meetings is a critical component of contributing to Odyssey of the Mind, representing CTOM, and planning the next year's program.

The Association Director is authorized to attend World Finals and the Mid-Year Directors' meeting.

Implementation

CTOM will pay for all reasonable expenses of the Association Director's attendance, including:

- Air, train, bus or personal car mileage to the Tournament city. The Association Director is encouraged to book reservations well in advance of the World Finals and seek advantageous, non-refundable tickets.
- Rental car. The Association Director is encouraged to book reservations well in advance of the World Finals and seek advantageous rates.
- Reasonable Room and Board not covered by the national organization. The Association Director is encouraged to book reservations well in advance of the World Finals and seek advantageous rates.

Board Service by Family Members

The Purpose for this Policy

Members of the CTOM Board of Directors are volunteers who have a fiduciary duty to discharge their responsibilities using independent judgment in the best interests of CTOM, Inc. At times family members have served concurrently as Board members. The Board has observed that such service has the potential to create conflicts of interest and other less-than-ideal circumstances which may impair the Board's functioning and decision making. The Board therefore adopts this policy:

Policy Restricting Concurrent Board Service by Family Members

To ensure that the Board performs at its highest level, concurrent Board service by family members shall be prohibited. Family members shall be defined as spouses, domestic partners, parents/children, and siblings. Nothing shall prohibit service on the Board of Directors while a family member is concurrently volunteering for CTOM in a non-Board capacity (for example, as a problem captain or committee member).

Policy on Chaperones

Chaperones Required at All CTOM Events

CTOM requires that all minors participating in CTOM Events be accompanied at all times by Chaperones, Parents or Guardians.

Applicable Events

This policy applies to all CTOM events, including, but not limited to Tournaments, Scrimmages, and Introductions.

Applicable Individuals

Minors are individuals under the age of 18.

This applies to all minors at CTOM events in any capacity, including, but not limited to Team Members, Visitors/Guests/Observers, and volunteers.

At Least One Chaperone Per Team, and Per 10 Minors

CTOM requires at least one (1) Chaperone per ten (10) minors including at least one (1) Chaperone per Team. This can be the team's Coach. However, if an individual coaches more than one team, then at least one (1) additional Chaperone is required for each additional team.

CTOM and event facilities' rules require at least one (1) Chaperone, Parent, or Guardian for each ten (10) individuals.

Implementation

Coaches are responsible to make sure their teams are adequately chaperoned according to this policy.

Coaches are responsible to inform team parents and other supporters that all minors must be chaperoned, and that it is the responsibility of the parent or supporter to insure that they arrange for adequate chaperones, parents or guardians at CTOM events.

This policy will be posted on the CTOM web site and publicized to coaches.

Connecticut Odyssey of the Mind Policy Guide

Policy on Program Conflict of Interest

The Purpose of this Policy The heart of CTOM is the quality of and fairness of all aspects of our programs, especially our Tournaments and all aspects of judging the competition. A critical aspect of fairness and the perception of fairness is avoiding potential conflicts of interest in the roles of Problem Captain, Judge, and Tribunal Membership.

Given the size and structure of CTOM and the nature of Odyssey competitions, all relationships between participants and judges cannot be completely avoided. Since many towns field teams in almost all problems and divisions, some teams will inevitably be judged by individuals related to their town or organization.

Further, fairness and the perception of impartial treatment of all teams are enhanced when members of the CTOM Board of Directors do not coach teams during their term of service on the Board.

Potential Conflicts of Interest Which Must Be Disclosed

The following situations must be disclosed to the Board of Directors in writing along with any statements of how a potential conflict of interest will be avoided or mitigated. The Board will then determine if the participation will be accepted.

- Serving as Problem Captain, or on a Judging team, in which a person has a child performing as a team member.
- Serving as both Problem Captain **and** either Coach, Assistant Coach or Coordinator
- Serving as both Judge **and** either Coach, Assistant Coach or Coordinator
- A Problem Captain with a child participating in the program on any team
- A Problem Captain with a spouse or relative coaching in their problem

Additional Conflicts of Interests

- Problem Captains may not provide coaching in their problem to a Coach or a Team in a way or in substance that is not available to all teams.
- No person should knowingly serve on a Tribunal or on a Judging team in which they have a current relationship or contact with a team, or coach, such as teaching in the same school, children attending the same school, or a close relative coaching the team or close relative a team member – without discussing the matter with the Head Judge, Problem Captain, or Tournament Director.
- No member of the CTOM Board of Directors may serve concurrently as a coach. Active coaches cannot be elected to the Board of Directors. If a Board member wishes to coach a team, they are required to resign from the Board, or at the discretion of the Executive Board, may be permitted to take a leave of absence for the tournament year in which they are coaching.

Implementation

The Association Director will review this policy with each Problem Captain before they are presented to the Board for acceptance.

To the extent possible, the Association Director will assign Judges to problems other than that of the Judge's nominating team.

A copy of this policy will be sent to all Judges as part of their training package.

To the extent possible, Problem Captains will assign Judges to divisions different than that of the Judge's nominating team.

On the day of competition, prior to the start of the competition, Problem Captains will ask Judges to review all teams they will be judging and disclose to the Head Judge or Problem Captain any areas of concern for conflict of interest. The Head Judge and Problem Captain will make any changes in assignments they deem appropriate.

In the event a Judge, Problem Captain, or Tribunal Member determines that a previously unrecognized conflict of interest exists, they should expeditiously discuss the situation with their Head Judge, Problem Captain or the Tournament Director. Any such situations will be handled in a way that is fair and equitable to everyone involved.

The Nominating Committee shall be responsible for informing all current and prospective Board members of this policy prohibiting Board members from concurrently coaching a team.

Policy for the Format, Approval, and Distribution of CTOM Policies

Format of CTOM Policies

CTOM Policies will be officially published in Microsoft Word, HTML, or Adobe Acrobat formats, all with the same consistent font and format, as represented by this policy.

The required information will be: “CTOM Policy”, “initial approval date”, “latest revision date”, and “policy title”. There will be no specifically required header lines. Header lines should be used as appropriate to aid in reading and comprehension.

If and when the policy format is changed, all existing Policies will be reformatted without change in policy wording to the new format.

Policy Approval

Policies are developed by the Policy Committee. Development of a policy may be initiated by the Policy Committee or direction to the Policy Committee from the Board. Board members, the Director, and others associated with CTOM are welcome to suggest policies to the Policy Committee.

The Policy Committee drafts policies. The Board approves and is the final authority to amend or revise policies. Policies are approved by the Board.

Exceptions to Policy and Emergency Policy Revisions

Exceptions to policies are normally approved by vote of the Board at a regularly scheduled meeting, as specified in the bylaws.

In emergencies, the Board or the Executive Board may make exceptions and emergency policy revisions. In order to make such revisions:

- A situation must exist that must be resolved prior to the next scheduled Board Meeting
- The exception or policy must be in written form (paper and or electronic)
- A majority of the Board or Executive Board, not a quorum, must agree to the written policy with a signature, email, or telephone vote.
- The Policy or Exception along with the list of approvers and reasons for emergency action must be presented at the next scheduled Board meeting for ratification.

If the required documentation is presented, the policy or exception will be considered approved from the time of its emergency approval until the Board begins consideration of the policy or exception. The Board may then vote to continue, discontinue, or amend the policy.

If the Board does not approve the policy, it will be discontinued at that time. If the appropriate documentation is not presented, it will be deemed not to have been approved nor in effect previously.

Distribution of Policies

The Policy Committee Chair and the Director will each maintain both a paper and electronic files of approved policies, policy revisions, and exceptions. The record of all policies, policy revisions, and exceptions should be maintained and passed on each year, with sufficient backup copies to assure that the loss of one folder or file will not result in the loss of a complete record.

Within two weeks of approval, all policies must be distributed to all Board Members in person, by mail or by e-mail.

- Normally, policies are distributed by the Policy Committee Chair.
- Exceptions to policy and emergency policy revisions are distributed by the person proposing the policy or collecting the votes, usually the Director, President, or Vice-President (still within two weeks).

Policies which are generally applicable or require action or compliance by various groups such as Team Members, Coaches, Parents, or Judges should be posted on the CTOM Web site, and, where appropriate, distributed with

registration materials or in training sessions. Policies which cover details of the operation of CTOM or which are applicable to a limited group will not necessarily be widely published or distributed.

There will be no confidential policies of CTOM.

Policy for Ranatra Fusca and OMer Awards

The Purpose of this Policy

The heart of CTOM is the quality of and fairness of all aspects of our programs, especially our Tournaments. A critical aspect and responsibility of those tournaments is the awarding of Ranatra Fusca and OMer Awards.

Although ultimately subjective, this policy is intended to provide for 1) Consistency in maintaining an appropriate level of merit in performances or actions resulting in an award. 2) Provide for a high level of actual and perceived fairness in making these awards.

This policy is intended to implement the Odyssey of the Mind Program's intention and guidance in making such awards. The overall goal is to make awards whenever appropriate, striking a balance between the desire to reward exceptional creativity and exceptional actions, with the desire to assure that awards are not trivialized.

Nomination

Anyone may make an OMer nomination. They must complete an OMer nomination form and return it to a CTOM Board Member, who will promptly deliver it to the Association Director. The award will be judged primarily by the detail and substance of the information on the form.

Any Judging team may make a recommendation for a Ranatra Fusca award, at most one team per problem per division for teams they have judged. The judging team must fill out the Ranatra forms. These forms will be forwarded to the Problem Captain who will decide to forward them to the Association Director or not. The award will be judged primarily by the detail and substance of the information on the form.

Each Problem Captain and the information desk must be provided with OMer nomination forms. Each Problem Captain must be provided with Ranatra Fusca and OMer nomination forms. These will be provided by the Association Director.

Tournament Award Committee

The Tournament Award Committee will consist of at least 3 or preferably 5 voting members and 2 alternates. The Association Director or Board President will be the Chair, based on the Board President's designation, and will have 1 vote. Members will be assigned to the Committee by the Association Director or the Board President

1 preferably 2 members of the committee and 1 alternate will be non-Primary Problem Captains of three different problems or spontaneous – these will be assigned by the Association Director based on Problem Captains not involved in other activities at the end of the tournament day, with preference given to Problem Captains over Assistant Problem Captains.

1 preferably 2 members of the committee and 1 alternate will be CTOM Board members who are not Problem Captains (primary Problem Captains, excepted) – these will be assigned and notified by the Association Director in advance of the Tournament.

Award Committee Process

The Chair of the Committee will convene the committee when all members are available. The Association Director should have at least three copies of all nominations available for committee members to read.

Any Problem Captain or CTOM Board Member can be present to answer questions or present nominations that they or their teams' have made. Members of the committee are not excluded from this.

Once all presentations are complete and all factual questions have been asked by the committee and answered, the committee will reconvene without guests for discussion and voting on individual awards. An award will be made on a simple majority vote for that award.

The Alternate Problem Captain will vote on any awards involving an award by judging teams reporting to another Problem Captain on the committee.

Connecticut Odyssey of the Mind Policy Guide

Policy for Ranatra Fusca and OMer Awards (continued)

Alternate members will vote on any awards involving close relatives who are coaches or team members of non-alternate members. (Problem Captains alternate for Problem Captains, non-Problem Captains alternate for non-Problem Captains)

To the extent possible alternates will vote so that committee members will not vote on awards for teams from their town of residence, or for teams from schools or school systems with which they are associated.

Policy on Team Members on Multiple Teams

The Purpose of this Policy

The heart of CTOM is the quality and fairness of all aspects of our programs, especially our tournaments. A critical aspect of this fairness concerns team members and teams competing in multiple problems in one tournament.

While teams may compete in multiple problems in a tournament, the rules of Outside Assistance must also be taken into consideration. Any change in the members on the team could ultimately result in ideas from a member on one team making their way into the solution for the other team.

This policy is intended to maintain the level of fairness that is both expected and required in order to conduct a tournament that provides equal opportunity to all teams.

Student Participation

A student may be a member of a team that is competing in multiple problems. However, a student may not be a member of multiple teams where the composition of the team (i.e., the roster of team members) is not the same for all problems in which it intends to compete.

Team Participation

A team may compete in multiple problems. The composition of the team must remain the same for all the problems in which it intends to compete.

Additionally, for each problem in which it wants to compete, the team must

1. register;
2. pay all applicable registration fees;
3. provide the required number of judges and
4. provide the number of volunteers required under the rules in effect at the time.

A team will receive scores for each problem and will be eligible for an invitation to World Finals depending on the team's placement and the rules in effect at the time.

Policy on CTOM Tournament and World Finals Conduct

Expectations

Conduct of every CTOM participant, as part of an official Odyssey activity, reflects on the entire team, membership, CTOM, and the Odyssey of the Mind Program.

CTOM and Odyssey of the Mind expect that teams and coaches will conduct themselves, when involved with Odyssey of the Mind activities, consistent with the values expressed within the Odyssey of the Mind Program Guide. Most failures to meet expectations can be handled by gentle reminders or through scoring penalties. More serious matters warrant additional disciplinary actions.

Potential Reasons for Discipline

Potential Reasons for Discipline are outlined in the Odyssey of the Mind Program Guide. While reasons for discipline are not limited to that list, CTOM emphasizes that it considers the following Potential Reasons for Discipline

- Conduct which sets a poor example for other teams or reflects poorly on CTOM, such as destruction of property, inappropriate language, inappropriate signs and banners, inappropriate extensive horseplay etc.
- Conduct which is rude or disrespectful of other teams, judges, or volunteers etc.

Potential Disciplinary Actions

Potential Disciplinary Actions are outlined in the Odyssey of the Mind Program Guide. CTOM endorses these potential actions for all of its tournaments and events. As stated in that document: *“Teams and/or individuals will be disciplined according to the type and scope of infraction they commit. In some instances the team will be given a written warning. This will come from the Tournament Director or Association Director and be sent to the coach of the team and, if appropriate, the parents of the team members. Some behavior will result in immediate disqualification and removal from the event. This is at the sole discretion of the licensed association and/or representative of the tournament host site. For World Finals, CCI will also have authority to take action regarding inappropriate behavior.”*

When time permits the Association Director or Tournament Director will consult with members of the CTOM Executive Board before taking action that would immediately prevent a team from performing in a competition, however, the safety of every participant, producing a fair tournament, and the protection of property must take the highest priority.

World Finals Conduct and Discipline

It is the responsibility of the CTOM Association Director to represent the CTOM Board of Directors at World Finals Competitions. When the Director observes or is made aware of conduct of CTOM participants that has the potential for disciplinary actions, the Director should investigate the situation.

The Director is empowered by and responsible to the CTOM Board of Directors, to initiate or take appropriate disciplinary action consistent with the situation, including but not limited to: discussing the situation with the coach and/or team, warning the coach and/or team, and bringing the situation to the attention of the World Finals Tournament Director with a recommendation for disciplinary action including disqualification.

Subsequent to the World Finals Tournament, the Director may bring conduct to the attention of the CTOM Board of Directors, which may take disciplinary actions including those recommended in the Odyssey of the Mind Program Guide.
